

# Emergency Preparation List

truthunedited.com

## Priority #1

- Trust YAHUAH! You must be a believer in Yahusha. There is no prepping and preparing without Him. If you are a believer, then you should have no fear. Just believe!
- Have a physical Bible

## Remember

- Prepping is not about saving money. Don't think about saving money for this situation. Your money will not save you!
- The safest place to be is in your homes. Do not leave them
- Don't follow the crowds. If you see people running one direction, run in a different one. Don't ever follow the crowd
- Print out important photos that you may have stored on your phone and computer.
- Be mindful of expiration dates of supplies
- Plan for minimum of 6 month
- Be ready for the 2<sup>nd</sup> Exodus
